In addition the Managing Director will ensure that signs are displayed throughout the School providing the following information:-

All members of staff will be made aware of the School's First Aid policy. No member of staff should attempt to give First Aid unless they have been trained.

Accidents involving bumps to a student's head

The consequence of an injury from an accident involving a bump or blow to a student's head is not always evident immediately and the effects may only become noticeable after a period of time.

Where emergency treatment is not required a 'Head Bump' letter will be sent home to the parent/guardian.

Transport to hospital or home

The Managing Director will determine the appropriate action to be taken in each case. Where the injury requires urgent medical attention an ambulance will be called and the student's parent or guardian will be notified. If hospital treatment is required, then the student's parent/guardian will be called for them to take over responsibility. If no contact can be made with parent/guardian or other designated emergency contacts then the Managing Director may decide to transport the student to the hospital.

Where the Managing Director makes arrangements for transporting a child then the following points will be adhered to:-

- Only staff cars insured to cover such transportation will be used;
- No individual member of staff will be alone with the student in a vehicle;
- A second member of staff will be present to provide supervision of the injured student.
